## EDUCATION

---

### University of Pittsburgh

08/2023 – 04/2027

BS Computer Science, Minor in Music

Pittsburgh, PA

GPA: 3.8/4.0

Awards: Dean's List: Spring 2025, Fall 2024, Spring 2024, Fall 2023

Coursework: Data Structures and Algorithms I and II, Intro to Systems Software with C, Software Quality Assurance, Mathematical Foundations of Machine Learning

Organizations: Computer Science Club, Ski Club, Skate Club

## PROFESSIONAL EXPERIENCE

---

### Simulator Software Engineer Intern

05/2025 – 08/2025

Vistra

Beaver Valley, PA

- Developed a user login system for the company's internal Software Work Request (SWR) form database using VBA and SQL, enabling user-specific change tracking and introducing several new quality-of-life features.
- Assisted in identifying and troubleshooting hardware and software integration issues within the simulator room, enhancing reliability of custom-built analog input systems.
- Converted 3D image models across platforms using modeling software, ensuring tool compatibility and accuracy.

## PROJECTS

---

### Personal Website (HTML/CSS/JavaScript) 🔗

- Developed a personal website to showcase my portfolio and skills.
- Implemented interactive features, ensured cross-browser compatibility, and optimized for performance and user experience.

### Unreal Engine First Person Shooter Game (Blueprint) 🔗

- Developed a first-person shooter game in Unreal Engine 5 where players must locate and destroy targets within a time limit to win.
- Utilized Blueprint visual scripting to design game mechanics, User Interface elements, and asset integration.

### Data-Driven Survival Metrics for Neighborhoods (Python, Pandas, GeoPandas) 🔗

- Accessed public datasets to calculate which Pittsburgh neighborhood is most likely to survive an apocalypse
- Set metrics and drew statistical conclusions using pandas and data visualization.

## SKILLS

---

### Languages

Java, Python, HTML/CSS/JavaScript, MIPS Assembly, C, VBA, SQL

### Libraries

Pandas, GeoPandas, Matplotlib

### Game Engines

Unreal Engine 5 with Blueprint
